-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

- A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 3-5, 8-9, 12, 14, and 18-19 are rejected under 35 U.S.C. 102(e) as being anticipated by Raskar (U.S. Patent No. 6,520,647). Raskar teaches an image processing system and method comprising: light projection means 200 for projecting light of a distortion-free and predetermined shape into a projection area 101; sensing means 203 for outputting sensing information obtained by sensing the projection area into which the light of the predetermined shape is projected, from a projection position of a projection section for projecting an image; area extraction means 210 for extracting coordinates of the light of the predetermined shape in a sensed area (col. 3, lines 48-50), based on the sensing information; and keystone distortion correction means 210/400 for converting the coordinates of the light of the predetermined shape in the sensed area into coordinates for projection in a spatial light modulator (an LCD) of the projection section, and correcting keystone distortion by mapping coordinates of an input image

into the projection coordinates (figure 4). The applicant is directed to review figures 1-2 and 4 as well as col. 3, lines 47-67 and col. 4, lines 34-37. The predetermined shape is rectangular or square (figures 1a and 4); the area extraction means extracts coordinates of four corners (ABCD) of the light of the predetermined shape. The light projection means may comprise a portable device (col. 1, line 19).

Allowable Subject Matter

Claims 1-2, 6-7, 10-11, 13, and 15-17 are allowed.

Response to Arguments

Applicant's arguments with respect to claims 3-5, 8-9, 12, 14, and 18-19 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher E. Mahoney whose telephone number is (571) 272-2122. The examiner can normally be reached on 8:30AM-5PM, Monday-Thursday.
